M22222	Machine Gun, MK35.

(f) Subcontractors, suppliers and vendors provide many of the components of military end items. The lack of critical components could be one of the major limitations of the United States' ability to support its Armed Forces warfighting capabilities. Therefore, the Government designated critical components and/or subassemblies in Block #27 of the attached Production Capacity Survey (DD Form 1519 TEST) are those for which the Contractor will conduct vertical planning if not produced in-house. Additional critical components and/or subassemblies may be identified by the Contractor in block #21 of the attached Production Capacity Survey (DD Form 1519 TEST). Foreign producers (other than Canada) will not be considered as a source of supply for critical components. Mandatory vertical (subcontractor) planning will be accomplished by the ASPPO and the Contractor for all critical components identified on the Production Capacity Survey, (DD Form 1519 TEST), by using a sub-tier Production Capacity Survey (DD Form 1519 TEST). The Contractor agrees to coordinate completion of the DD Form 1519 TEST and finalize prime and subcontractor planning with the Armed Services Production Planning Officer (ASPPO) having cognizance over the prime contractor's facility.

(g) After completion of active production of the item(s), the Government will annually, or as changes occur but not more than annually, furnish the Contractor updated technical data for the item. The Contractor agrees to review the technical data and to report to the Government within 60 days of receipt of the data, the impact of technical changes, if any, to the current Production Planning Schedules at no additional cost to the Government.

(h) Retention by the Contractor of the surge/mobilization capacity set forth in the Production Planning Schedules after completion of active production of the planned item(s) will not necessarily require that the Contractor maintain such capacity in idle status. Contractor utilization of capacity allocated for planned production for production of other non-planned items is consistent with the intent of any postproduction provisions of this contract, provided no degradation of surge/mobility capacity occurs as a result, and provided that the approval of the Contracting Officer with property cognizance is obtained for the use of any Government-owned property.
